PUBLISHED WEEKLY, BY
C. R. PATTONSON.

AN APOLOGY.
We feel that we owe our readers an apology for consuming so much space in advertising. This is the last publication of the tax sales. We have been constantly rejecting foreign advertisements, and if our business men fill up the space as we have good reason to believe they will, we shall shut it out almost entirely. It will speak in loud tones for our city. But at all events we promise our readers more reading matter, if we have to raise the price of advertising.

HARD PRESSED.
The colored children of our city are provided with a school, and teachers are as carefully selected for them, as for any other department. Here as everywhere else, experience has confirmed the universal sense of propriety, that a separate school is best for them. We take it that the experience of our Churches is similar; for we notice that the colored Methodists have their separate church; and the colored Baptists also, instead of being received at the same Lord's table with our cotemporary and his brethren have a place by themselves. Shall we say then, that we cannot compare the attendance at church, because the latter are wickedly excluded from the churches, and this is done through the balance of power exercised by the Irish Catholics?

Before our cotemporary attempts to find notes in the eyes of our school management, let him pluck the beam out of that of his church.—Sentinel.

Rev. Mr. VanPammel don't dare to accept of our kind proffer, and the editor of the *Sentinel* takes up the baton in his behalf. Our cotemporary is a good deal muddled. First, we are not boss of the Baptist church. It is an independent, democratic organization, owing no allegiance to pope, bishop or priest, or any layman. Second, The Baptist church of this city never excluded a person, because of color from membership from its house of worship, from the Lord's table or from the pulpit. The colored members chose to organize a church by themselves, as a second Baptist church. And so in case of the colored M. E. Church. They increased in numbers and thought they could exert a wider and more salutary influence by organizing a church. This is frequently the case where all the members are white. But neither of these colored churches exclude members because of color. Neither we are proud to believe does any religious body in this city descend to this unchristlike thing. Two years the first of January last, New Year's eve, when the colored people of this city celebrated the glad event of the 'emancipation proclamation,' ushering in the joyous era of liberty to millions of their race, the Baptist church of this city threw wide open their doors, and bade them welcome. It was at a time when mad hate against this race was most rampant. New York, Detroit and other cities had been disgraced by democratic mobs, seeking the utter destruction of the colored people. The aged and the innocent babe were alike murdered by the bad men, whom the high priest of democracy, Horatio Seymour, the man who presided at the great Chicago traitor Convention declared 'his friends.' At this critical juncture, when through disloyalty of the democratic party civil war at the North seemed imminent, when good, stout hearted men trembled, and even the possibility of a mob was whispered in Ypsilanti provided the blacks held their jubilee, the Baptist Church trampled upon the high walls of prejudice, and said to God's despised ones, 'come into our house of worship and hold your jubilee of freedom.' This don't look much like a beam to be extracted. We presume that other houses of worship in this city would have been at their disposal if asked for. When we see a 'beam' of pharisaical prejudice of this character in any of our churches, we shall not hesitate to expose it to the deserved execration of all humane men and women.

But the unmanly attempt to criminate a church, and make the editor of this paper responsible for its right action because of his membership in it, won't work in this intelligent community. We still charge home on this 'balance power exercised by Irish Catholics,' aided by corrupt politicians and by our cotemporary as the chief sinner, the wicked exclusion of the children of colored citizens from our Union School. It is true there is a school for the smaller children and those not far advanced, and a very good one, we presume. But when these colored children become young men and women, aspire to something higher, what chance have they in our Union School? They are debarred the higher grades of learning. No matter how well behaved, their proficiency, they are shut out. And you know that this exclusion is not counted

nanced by the mass of intelligent men and women in Ypsilanti. It is ignored on by the *Sentinel* and others of like ilk, who shout in mad prejudice, 'away with these colored imps that dare to aspire to a level with our children in the acquisition of knowledge.' We copy the following from the N. Y. Independent:

"Richard Greener, a young man of twenty years of age, after passing a very rigid examination, was last week admitted to the freshman class in Harvard University. The young man was a graduate of Phillips Academy, Andover. The oldest and wealthiest college in the United States, takes its stand upon the principle of equal rights, irrespective of color."

Phillips Academy one of the leading institutions of the kind, and Harvard University, pre-eminent among the literary aristocrat colleges of the nation, stand forth on the broad basis of equal justice to all. Low and false flings at the churches of this city will not settle this question. The day is not far distant when in Ypsilanti, all, irrespective of caste or color shall be entitled to the ballot, and the child of every citizen can hope to aspire to the highest literary attainments.

AS WE EXPECTED.
Our cotemporary is opposed to holding a school-meeting in open daylight. He is of that class aptly described in Scripture, who love darkness because their deeds are evil. We would like to know if laboring men can't devote from fifteen to thirty minutes in voting for school officers as well as a whole day in ordinary ward elections? There is scarcely a man who would miss an hour. The class he alludes to and whose votes he is afraid would be lost, are the very class who would mind the loss of time the least. It might save them time for work the next day. At our last school meeting, this rowdy class whose votes he is so jealous of losing inspired by bad whiskey, got into a fight on their way home, and disabled some of them for the next day's toil. Day voting would be an absolute saving of time. The truth is our cotemporary don't care a fig about the laboring men. He wants the votes of these men to subvert partisan purposes, and he well knows the shades of evening foster his purposes. He favors illegal voting. He knows as well as he knows anything that the late election was a farce. Certainly one of the incumbents was elected by illegal votes. If he disclaims it, the fact can be proved by the testimony of men that no one in this community dare gainsay. His sudden affection for laboring men is all a ruse in order to perpetrate these frauds and insults upon the public conscience. There is a broad and deep undercurrent that has been gathering force that will demand the daylight and the opening of polls for the election of our school board. School meetings were formerly held at Ann Arbor in the evening, but a change was compelled by a want of decency such as exhibited at our late school meeting, drunkenness, staggering up and down the aisles, uttering the most disgusting language.

"Twice only has parties and secret cliques entered our school meeting, and neither time from the democratic side." Whatever efforts have been made to change our School Board have resulted from its constant partizan character.—The Democracy were determined to control it, and every effort to make the thing equal and unpartizan has been howled down by the cry of 'stop thief.' It is a partizan Board to-day, and will continue such if our cotemporary can have his way. Thanks to an enlightened and awakened public conscience, he and his clique cannot much longer thwart the public sentiment. It is a long road that has no turn in it.

PROF. WELCH.
We have heard nothing but universal regret expressed in reference to the departure of Prof. Welch from our midst. All feel that it is an irreparable loss to the Institution over which he has so ably and faithfully presided, and to the community of which he constituted an enterprising and public spirited member. A resident among us for nearly a dozen years, he will leave with the good wishes of the entire community. We trust that the object in view, a restoration to health will be attained.

The following is from the correspondent of the *Detroit Tribune*:
All friends of education will regret to learn that Prof. Welch has resigned the Professorship of the State Normal School. After a great deal of expostulation, the Board accepted his resignation, but on condition that he would remain until Nov. 20th, to give them ample time for the selection of an efficient Principal, and to superintend the organization of the coming term of school, which opens Monday, Oct. 25. The protracted poor health of Prof. Welch compelled him to take this step. He will spend the coming winter in Florida.

The State Normal was established by an act of Legislature, approved March 28th, 1849. Under this act, which appropriated twenty-five sections of 'Salt

Spring Land' for the purpose of this school, a committee of three was appointed to locate it and superintend the erection of its buildings. By this committee the school was located at this place where the largest sum had been pledged for the purpose above named. The sum of \$13,500 beside the lot, was subscribed by the citizens of Ypsilanti and vicinity, which sum was guaranteed by fifty of the most wealthy men here. That edifice which proudly overlooks the city, and which is proudly appreciated by it, was erected in 1851-2. In 1859, by some mismanagement of the furnaces, the entire wooden portion was consumed with all its contents. The walls however remained, and the building was reconstructed on a much improved plan.—The Normal School is a fixed, living and useful fact. Under the very efficient management of Prof. Welch, it has gone forward from year to year happily disappointing even those who had entertained the highest expectations concerning it. Its students have been under such a discipline that the citizens have not been subject to those vexatious mischiefs which sometimes prevail around institutions of learning, and which young men are likely to think are evidences of genius. A worthy independence and good order have dwelt together here, and the successful past is a promise of a useful future.

ACCUSINGS OF CONSCIENCE.
We notice from a recent issue that our cotemporary is smarting for his wanton violations of the courtesies of social life in publishing private letters. We had supposed him hide bound.—We had thought of advising our citizens to keep everything of a private character under a safe lock. But there is hope of a reformation and we forbear.

NATIONAL EXHIBITION OF HORSES.
Next week, the 3d, 4th, 5th and 6th of October, there will be an exhibition of horses on a grand scale at Kalamazoo. The premium list reaching \$5,000 will be open to competition from the United States and Canada. A trotting premium of \$1,000 and a running premium of \$500 is offered.

CAMP FIRE AND COTTON FIELD.
We have before us the advance sheets of a new work of the above title. It contains the experience of Mr. Thos. W. Lennox, the special correspondent of the N. Y. Herald. He is a writer of acknowledged ability, and gives a comprehensive and complete history of the campaigns in the West and Southwest. A graphic and absorbing description of the battle of Gettysburg. He gives a complete dissection of slavery and develops the free labor experiment.—gives an account of his numerous escapes through ingenious stratagems.—It is a thrilling and exciting narration, spiced with the heroic deeds of our brave soldiers, laughable anecdotes and ludicrous scenes of army life. A volume of 524 pages. Twelve illustrations. Price, \$2.50, to be sold only by subscription.

DR. KNAPP & SON,
Physicians & Surgeons.
FORMERLY OF NEW YORK,
are treating successfully

CHRONIC DISEASES!
ON A NEW SYSTEM,
which embraces the best and most approved methods in this and all other countries for the cure of all Chronic Diseases.

They treat successfully all nervous and neuralgic affections, all forms of scrofula, dyspepsia, diseases of the liver, constipation, all skin diseases, pulmonary consumption in its early stages, paralysis, epilepsy, Salt Rheum, Headache, heart diseases, diseases of children, and Seminal Weakness and Sexual diseases, which are carrying thousands to their graves annually.

EYE AND EAR:
They treat successfully, on a New Method, all diseases of the Eye and Ear. They have had more extensive practice and better success in the treatment of all

DISEASES OF WOMEN!
than any other physicians in America. They have cured women who have been confined to their beds for years. They never fail to cure

RHEUMATISM
in all its stages, no matter how long standing. They cure Asthma so it never returns.—They have sure cure for the distressing disease

Cancers:
They have had an extensive practice, and wonderful success in the treatment of Cancers, which they cure without eating them out, or using the knife. Let those who have tumors or swellings, or a red spot, lose no time in having it attended to, as a timely treatment may save them from the horrors, sufferings and death of an open Cancer.

CATARH CURED.
They are treating Catarrh on a new system, which is a sure cure for this disease. Experience has proved that this disease cannot be cured by local treatment alone; hence the many advertised cures for Catarrh all of which are local remedies, give relief only while the patient is using them, and never cure. Understanding the disease, we know it cannot be cured by local treatment alone, therefore we also prescribe a constitutional remedy; and by the combined local and constitutional treatment we are enabled to remove the causes of Catarrh and thereby effect

DIPHTHERIA CURED!
They have discovered a sure and speedy cure for this disease, or Scarlet Fever, which is of the same class of disease. It never fails to cure diptheria or scarletina in from 12 to 48 hours. It gives relief immediately.
PRICE PER BOTTLE, \$5.00
Their consultations for years have averaged from five to seven thousand a year, which gives them an experience unsurpassed by any, and equalled only by a few.

A PERMANENT CURE.
Remember, they do not promise to cure all stages of disease, but if taken in season, all stages are cured. If taken in season, all stages are cured. Your case may be curable this week, not next—to-day, not to-morrow. Hence the danger of delay.
No case will be received where there are any Doubts of Cure or Relief.

Our Terms are Cash; hence the money must be sent with all orders for medicine. It costs from five to fifteen dollars per month to doctor with us, which includes medicines.
The poor will be favored.

CONSULTATION FREE.
Patients must write their name, State, and Post Office address plainly. All letters requiring an answer must contain a letter stamp, and be addressed to

DR. KNAPP & SON,
120 N. Dearborn St., Chicago, Ill.
Any of the above diseases can be treated successfully by the patients describing their case in a letter, when they cannot see us.

A MEAN TRICK.

Would be so, considered if done by parties outside of Church discipline or in any protestant body. Father Jarvis we use the term, by which he is familiarly known in this city owned a piece of land, which the Catholics had for some time wished to secure for cemetery purposes. He refused to injure his own property and discommoded his neighbors by selling the land for any such purpose. Finding all fair and open means of no avail, they bring on a gentleman, (we will not say a gentleman, for no gentleman would condescend to such meanness,) who professedly bought the land upon which to build a homestead. This man (Catholic) immediately transfers the land over to the Catholic priest for a Catholic burial ground. We have a good cemetery in this city in a suitable place. It is an injustice to the residents of that portion of the city, and the attempt to thrust a nuisance upon an unwilling community ought to be stopped by legal proceedings.

We say in all kindness to the Catholic minister, such underhanded measures even to subvert good ends, will recoil upon the Catholic cause, especially in a community that feels itself ridden and goaded by the bad political influences emanating from the same source.

"He Ye Also Ready."

An esteemed fellow citizen, Mr. Mortimer Crittenden, was killed by a lightning stroke last Sabbath morning. There was only a single clap of thunder. But the single shaft of death penetrated a happy family abode and in an instant summoned the honored head, husband and father, into the presence of his god. "In life, death." A lost tree stood near the dwelling, a story and half house, towering above it. The electrical element struck the tree and being a poor conductor, dashed off on the roof of the house and very regularly in its downward flight struck Mr. C. who was sitting nearly the center of the room. It denuded him almost entirely of his clothing. He was dressed for meeting. His coat and pants and boots were torn into shreds, and he himself thrown several feet distant upon the floor dead. He was immediately carried out and denuded—the rain was falling in torrents—but life was over. A young lady was badly shocked, both her arms being paralyzed. At last accounts she had not the use of them, but her recovery is hopeful. Mrs. C. was shocked but not seriously. Mr. Crittenden was about 50 years old. He had worked hard and was preparing to build him a new house. He was a member of the Presbyterian church and it is fervently believed that he has entered into the "house not made with hands, eternal in the heavens." The funeral was held at the Presbyterian Church Tuesday last an appropriate discourse being preached by the pastor Rev. Mr. Tindall.

THE STATE FAIR
Was a great success. The attendance was large and the receipts and entries beyond precedent.

Mr. D. M. Uhl of this city, did Washington County and especially the town of Ypsilanti great credit. He received the first prize for the following stock: A yearling heifer, a two year old Durham bull, 'De-gray,' bought of Alexander, Kentucky; a cow, 'Florence,' bred by Mr. Fullington, of Ohio. He also took a sweepstakes on the best animals, male and female, viz: Degray and Florence.

Mr. Uhl has exhibited at every State Fair for sixteen years and always took a premium. Two years at Kalamazoo he took the premium for eight best head of cattle offered.

CURRENT EVENTS.
The Alabama State Convention has passed an ordinance doing away with slavery. Gov. Andrew has accepted the Presidency of Antioch College. We are sorry, for we had hoped that he would become a member of Congress, and exert a salutary influence in this critical juncture of our national affairs. The English Government is preparing to meet the Fenian outbreak. A daring robbery was committed in broad daylight at Concord, Mass., the national bank was robbed of \$300,000 in bonds. A letter written by President Lincoln to Gen. Wadsworth, who fell in the battle of the Wilderness has come to light. It favors universal amnesty and universal suffrage. This is Horace Greeley's position. Mr. Lincoln says: "How to better the condition of the colored race has long been a study which has attracted my serious and careful attention, hence, I think I am clear and decided as to what course I shall pursue in the premises. Regarding it a religious duty, as the nation's guardian of these people who have so heroically vindicated their manhood on the battle-field, where in assisting to save the life of the Republic they have demonstrated in blood their right to the ballot, which is but the protection of the flag they have so fearlessly defended."—The cholera is increasing in Marseilles, France. Our Government has received communications of importance in reference to this fearful disease, and it is expected that ere long the Governors of every State will issue a proclamation of warning to the people to prepare the coming of this terrible scourge. Mr. Wells, the Governor of the bogus Government of Louisiana, has been appointed by the President, Provisional Governor of Louisiana. The trial of Wirz is a tedious affair. The conviction and punishment of so small a specimen will scarcely pay the expense. The Maine election turns out better and better. The Republican gain on majority of last year is 6,049. The Legislature will consist of one hundred and thirty-four Union men and seventeen Democrats. Last year it stood 120 Union men and 31 Democrats. Adherence to principle pays. The Democracy have put a plank in nearly all of their platforms in favor of forever disfranchising the black man in this country. But we shall wait then upon this as upon all other questions pertaining to manhood and human rights. It is looking better for the Republican cause in Mexico. It is estimated that the Fenians have enrolled in Ireland 140,000 able-bodied men. There is bloody work ahead. The State Convention of South Carolina have declared, "that slavery shall never be re-established in that State." A span of horses valued at \$30,000, were recently destroyed by fire at Washington Hollow, N. Y. The Fenian movement is looming up in big proportions. There are now five hundred lodges in the United States and 3,000 female Fenians. An immense meeting was held in Cooper Institute, Wednesday night. The following is the appeal of the chief speaker, Col. Roberts: "Do you, then, fellow-countrymen, of every creed and belief, I appeal to you to stand by the Fenian Brotherhood, and enable them to carry out the resolution successfully, by furnishing the sinews of war to the brave men who are preparing to strike one more blow for Irish liberty and Irish independence. You cannot stay, no power on earth but that of force can stay the onward movement of the Irish patriots, who are meeting silently and lively from Cork to Donegal, and from Dublin to Connemara, from New York to New Orleans, and from Maine to San Francisco. They will soon see an Irish flag flung to the breeze."

New Cloakings at J. O. Cross & Co.

Dr. Knapp, formerly of New York, who has visited Ypsilanti regularly the past year, and effected many wonderful cures of old Chronic Diseases, Cancers, and diseases of the eye and ear, which have been pronounced incurable by the medical profession generally, can be consulted at the Follett House, Friday, Oct. 6th, as will be seen by his advertisement.

THE HOWARD ASSOCIATION of Philadelphia, still maintains a high reputation for prompt and honorable dealing, and continues its humane efforts for the relief of the sick and distressed, afflicted with virulent and obstinate diseases. See advertisement.

Nothing can be more wonderful than the operation of the Red Jacket Bitters in obstinate cases of costiveness, for it is a mild and genial cathartic, as well as a tonic and corrective.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early decay, diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have already been cured by this noble remedy. "They made her grave too cold and damp, For a soul so warm and true."

If they had been wise, the dire necessity of opening the grave for one so lovely might have been averted. Almost all diseases have their beginning in some slight difficulty of the stomach which would eventuate in Dyspepsia, Headache, Liver Complaints, Night Sweats, Consumption, Death. Plantation Bitters will prevent these premonitory symptoms, and keep the blood pure and the health good.

MARRIED.

CAMPBELL—McMAHON—On the 20th inst., 1865, at the residence of Joseph McMahon by Rev. Mr. McCarthy, Gabriel Campbell A. B., late Capt. 17th Mich. Inf. to Miss Louise T. McMahon.

RECIPE FOR FEVER & AGUE.

Bangor, VanBuren Co., Mich., Sep. 9/64.
Dr. O. W. ROBACK—Sir: Your Blood Purifier and Pills sell better here than any other medicine I can keep. They are just the medicine for the people. Particularly adapted for the cure of Fever and Ague, but the people use them as a general medicine. To break an attack of the ague take a table spoonful of the Blood Purifier every hour, and then cleanse the stomach and bowels well with your Pills, and in three days the complaint will be removed, and a permanent cure effected. All who try this treatment before applying to a physician, will be saved much cost and suffering. sep. A. B. TAFT.

Manufactured by J. CRISTADORO, No. 6 Astor House, New York. Sold by all druggists. Applied by all Hair Dressers. Sep.

BRANDRETH'S PILLS A GENERAL ASSISTANT OF NATURE.

What is health? What is disease? Health is when the supply and expenditure are equal. Disease when they are unequal. BRANDRETH'S PILLS impart certain expulsive powers to all matters in the body whose life is below the standard of the surrounding party, or which have remained longer than nature designed. So in fevers and all that class of cases which run in to mortification, Brandreth's Pills have marvelous curative qualities. Our bodies are continually changing, and it is by this change we live. Should matter remain in organs beyond the time nature designed, pain and inflammation set in. All Brandreth's Pills are supposed from the result to do is simply to assist the efforts of nature. sep.

INCREASE OF RATS.—The Farmers' Gazette [English] asserts and also proves by figures, that one pair of rats will breed a progeny and that one pair of cats will destroy no less than 651,000 in three years. Now unless this family can be kept down, they would consume more food than would sustain 66,000 human beings.

See "COSTAR'S" advertisement in this paper.

1865.

RATS vs. BIRDS.—Whoever engages in killing small birds is a cruel man. Whoever aids in exterminating rats is a benefactor. We should like some of our correspondents to give us the benefit of their experience in driving out these pests. We need something beside dogs, cats and traps for this business.

See Costar's advertisement in this paper.
